

Announcing the Flagler County School District . . .

Parent Portal Registration

Flagler County School District has created an opportunity for parents/guardians to view student grades/attendance data through a parent portal accessible from the Flagler County School District website, www.flaglerschools.com. This portal is a component of our district online grade book system, FOCUS/SIS.

To ensure the privacy of your child's records, the following safeguards have been put into place:

- Online access to student grades/attendance will only be provided to a legal parent/guardian.
- At the time of registration, the legal parent/guardian must produce a photo ID with current home address listed on it.
- One Parent ID and Pin Code will provide access to all students for whom you are the legal parent/guardian.
- If this secure user code is shared with anyone else, it is at the discretion of the parent/guardian and not the responsibility of Flagler County School District.

During the month of January, each school will have designated dates for parents to register for their portal log-in information. Please watch for the registration dates and times for your child's school through the . . .

- School Newsletter
- School Website
- School Marquee
- School Principal's Letter or Flyer

We have confidence that expanded communication between parents and schools will lead to increased student achievement.
